### International Day, 2011

International Day was an extraordinary experience which everybody enjoyed with every activity. We had the opportunity to see the performances of students from many countries. I liked the participation of Cecilia Banos with the song "El Sombrero Azul" and the dances from Mexico and Ghana. I was surprised about Iran's performance because I didn't know that Frederick and Ilichia could dance so well. Also, I liked the typical, beautiful dresses from Korea and China.

The food was delicious. I ate food from Mexico, Syria, Iran, Turkey, Colombia, Korea, China, Indonesia, Guatemala, El Salvador and the Dominican Republican.

I think International Day was a great opportunity for students from every country to share their cultures, traditions and food.
