Wonderful International Day

International Day was really good for me to have an experience to try many kinds of international food and see international customs, singing and dancing. Especially, the performance of the woman from Ghana was good. I had seen the performance of most countries before, but I hadn't seen Ghana's. When she danced her traditional dance, I saw her shoulder blade that was very flexible. She had very graceful movements. Also, I was very happy because an 80-year-old lady, who was from Poland, still played piano beautifully and she was healthy. I believe her playing had power to touch our heart. I was inspired by her while she was playing the piano. Many times I was depressed because my brain was getting worse and I forgot easily, but I can't give up anything because she made me stand again.
