

## ***International Day***

International Day was amazing for me. It was the first time in my life that I was able to meet people from more than thirty different countries. It was very interesting watching people from different cultures sharing their emotions, singing together and learning new things about other countries-- their language, their dance, their music, their customs and their traditions.

I was amused by all the performers, especially the one from Ghana. I think it is admirable when only one person tries to introduce many things about her country and culture although she is alone. That part of the show was marvelous for me.

I wasn't able to try most of the foods because I was busy taking pictures and video. I took more than 150 pictures, and I recorded about two hours of video. I am trying to do my best to edit the films and make a valuable DVD which will be a good memory for all the people who gathered there.

I am sure that International Day was a precious experience for all the people who were ready at Rinaldi Adult School on May 20, 2011.
