International Day, 2011

Last Friday, on the 20th of May our school celebrated International Day. It was a great day. There were a lot of performances such as dancing, singing and a lot more. Overall it was a lovely day. There were a lot of participants from different countries like Korea, China, El Salvador, Mexico, Chile, Iran, Russia, Armenia and many more. All the participants performed really great. Some people dressed in their traditional dress.

After the performance, all the students left the auditorium and went to the food stands. Some students prepared food from their countries and brought it to school. There was a lot of food from many countries that I had never tasted before. I ate cactus. One of my friend from Mexico brought it, and I tasted it. Also I tried rice with raisins from middle-east country.

I brought a dessert from my country. It is called soy bean porridge. My friends told me they liked my dessert. I took some photographs with my friends. It was a nice day. The weather was nice and there were a lot of interesting things I learned about.
