INTERNATIONAL DAY

Last Friday was a special day at our school because we celebrated International Day with music, dances, and food.

I danced with my wife, "La Cueca" a traditional dance from Chile.

My wife and I were so proud to show a little bit of the customs from my country.

I enjoyed the different performances a lot. My classmate's performances were fantastic with beautiful dances and wonderful songs.

Then I was so happy carrying the sign of Chile while we heard the beautiful song "We are the world".

I was surprised watching people from many different countries at our school.

Finally, we tried a lot of different delicious food.
