I N T E R N A T I O N A L F E S T I V A L 2 0 1 1

I would like to tell you about International Festival, 2011. On Friday May 20, Rinaldi Adult School celebrated the 28th Annual International Festival, 2011. Students from 60 countries all around the world participated at this Festival. The students brought food and wore costumes from their countries. The school invited every student to be part of the celebration. Some of them danced or sang. I enjoyed it very much because I had never seen so many cultures at the same party. I loved watching my friends dancing and singing.

I didn't dance or sing because I was streaming the show through the internet. Because of my work I was able to transmit the festival using software and the internet. I know that people from other countries watched the festival, for example, my friend Rolo who was in Nicaragua and Sherry from San Francisco, California.

After the singing and dancing in the auditorium, we enjoyed different dishes from different countries.

Everything I tasted was delicious. It was a nice time.

All students shared their cultures and took pictures. I'd love to be at the 29th celebration.

Let me tell you that if you or your friends or family in your country want to see the festival, you and they will be able to watch it at www.sanfermagazine.com

After it opens go to TRANSMISION EN VIVO and click on it.

It will open the showroom. Then click on INTERNATIONAL FESTIVAL 2011 video. I hope you enjoy the show, and tell your friends and family.
