

International Day

My International Day was very exciting. I learned a lot of things about different countries, and I ate different food. I was very happy about my performance even though I was the only one from Ghana. I did a good job on my dance which is called, "Borborbor". Every time I was dancing, it reminded me of the first time I met my husband. The students who did not come that day missed a lot. It was such a beautiful day that we will never forget it.
