International Day

I attended International Day for the first time at Rinaldi Adult Center. It was a wonderful day. All the students came from sixty countries, and they all have different cultures. A lot of students wore traditional clothing and performed traditional dances and songs from their countries. Mawu danced a traditional dance from Ghana which was very interesting. Also, they brought traditional food from their countries. Student participants worked on decorations, servicing food, and many kinds of things that helped all students understand their cultures. We enjoyed all the performance and food. This International day made an unforgettable impression on me.
