

Miwa Chiba

How was International Day ?

I've participated in International Day three times at Rinaldi Adult School. It was such an exciting experience, like a round-the-world trip. There were people from many different countries. We were able to eat food from many countries. We were able to feel the cultures from different countries. My favorite performance was Mawu's dance that I felt as part of nature.

We did a performance making "Origami" on the stage. I thought we couldn't do any performance because there were just two Japanese. However Mr. Terrence gave us a good plan to make "Origami". I know he will retire at the end of this semester. I thought I wanted to do a performance together with Mr. Terrence. I will never forget this wonderful International Day.
