

## INTERNATIONAL DAY, 2011

Last Friday we celebrated International Day. I participated starting at 8:00 o'clock decorating our table until the festival finished.

I helped my group to serve the tamales and enchiladas.

This year we had a lot of performers all with nice costumes and good music which motivated the public to participate with their applause.

Each group had original decorations and food. My group from Mexico had a big place and a lot of food: posole, enchiladas, tamales, cactus salad and Mexican candies.

I tried to eat some Korean and Guatemalan food. It was a nice experience to share different kinds of food with all the students and teachers.
