International Day, 2011

International Day was interesting. Our school has many different countries. There are students from sixty different countries. I think it's amazing. This year we prepared for it for two weeks. Our country, Korea, prepared two different songs, called Alirag. We wore Traditional Korean costumes. Other people from other countries wore traditional costumes too. It was a good time. We had food from many different countries. I tried food from every country. It was so incredible.
