## International Day

International Day was a very special day. It was on May 20, 2011. This was my first time to attend this wonderful event. We had the opportunity to meet people from all different countries and taste all kinds of food from all over the world. I really enjoyed this because I saw a lot of performances like singing, dancing and a lot more.

On this day I had the chance to cook, so other people from other countries could taste our variety of food in Mexico. I made a lot of friends from my country, Mexico, because we met for several days to discuss what we were going to bring for this day. I felt I had a little piece of my country when I saw the costumes especially the sombrero and the zarape. Almost everybody wanted to take a picture with those things. This means that they liked our culture.

I really liked it because everything was well-organized. A lot of students and teachers helped to make this become a wonderful day. I am really grateful to all the people who made this possible.
