International Day,2011

On May 20,2011,I attended for the first time a beautiful event ----International Day at Rinaldi Adult School.

It was spectacular. I really enjoyed seeing different people from different countries. I enjoyed watching all the dances, especially the ones from Peru,Iran,and Russia. It was really beautiful to see all the friends wearing typical clothes from their countries especially the one from China. I was really teary when all the students were coming down to the stage with their respective countries' signs and we were singing the song,"We are the World." It was amazing.

After the performance everybody enjoyed all kinds of food especially the food from Mexico and El salvador was very delicious. It felt so good to be around everybody. I didn't regret taking a day off from work. It was an amazing event!!
